

## Project context:

Adventure Works Cycles, a multinational manufacturer, distributes metal and composite bicycles. In the new year, the company aims to growth revenue, start by analyzing the company's current business and Customer data

## How I do this project ?

In this project, I apply Design Thinking to identify the path that project will going, its include 5 steps as below:

Step 1: Empathize

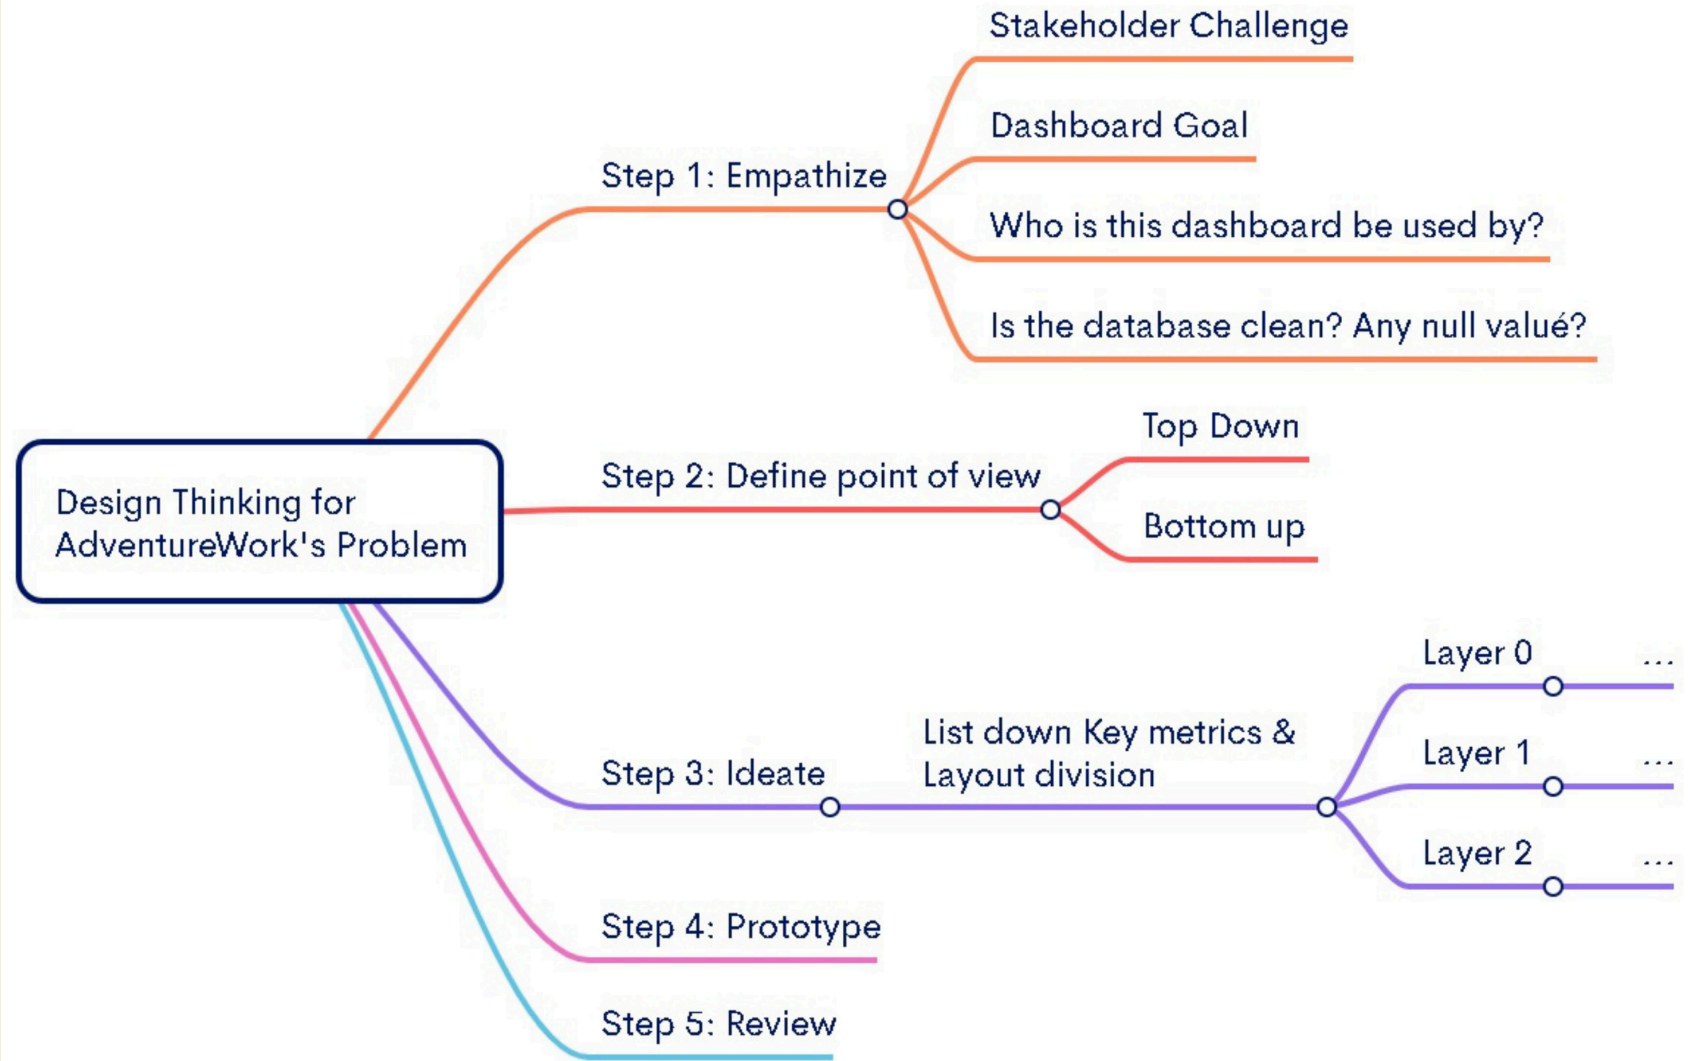

Step 2: Define Point of View

Step 3: Ideate

Step 4: Prototype

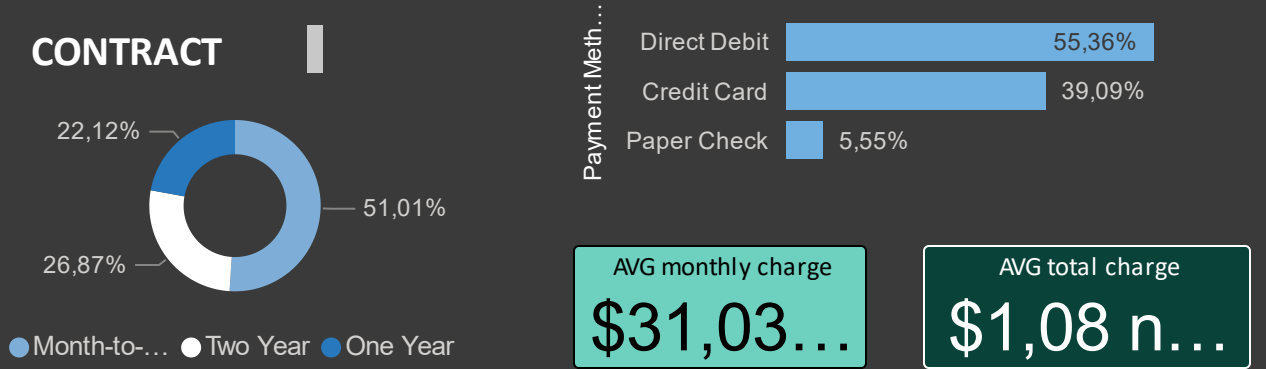

Step 5: Review

At the end, I based on dashboard to draw insights and give suggestion to improve weaknesses and promote strengths that the business has
